DUAL SPEED FLOOR MACHINES

POWER AND DURABILITY

All of our floor machines are 1.5 HP high quality machines that can be used on both carpet and hard floors. The value of these machines is unsurpassed because of the powerful motor, triple planetary transmission, and affordable price. The all metal construction is mounted to a heavy duty 66 style frame. Features like the adjustable handle, large transport wheels, non-marking bumpers, and safety switch levers make these machines perfect for any user that needs to scrub, strip, polish, or shampoo.

MX-170DS

WET/DRY VACUUM

FEATURES & ACCESSORIES

Accordion Stretch Hose

Eliminates the need to carry an extra hose. Expands as you need it and instantly retracts when you hold your hand over the end, an industry first.

Ergonomic Handle

Motor cooling fan air inlet

Molded-in splash protection

Dry bag storage

Single latch access

Noise Diffusing Exhaust Manifold

Suppresses high-frequency sound with its noise-canceling technology. Motor exhaust is directed through exhaust grates which redirects sound waves while gradually releasing exhaust.

Carry handle

2-stage motor most powerful in its class

Rugged 10" wheels

27" Ribbed Polyurethane Squeegee Blades

The ribbed polyurethane squeegee blade is the industry's finest. Flexible and wear resistant for the perfect combination to remove liquids from the cleaning surface.

Powder coated metal squeegee assembly

Automatic Vacuum Shut-Off

Motor failure is never pleasant. This is caused by motors ingesting liquids. The new magnetic motor shut-off never lets liquids get close to your vacuum inlet, extending motor life compared to traditional Wet/Drys using a ball float.

Automatic Shut-Off.

No Ball Float!

Standard Tools With Onboard Storage

WET/DRY VACUUM THREE CONFIGURATIONS

MXWD-15

Includes:

- Accordion Stretch Hose
- 10 qt Dry Filter Bag
